

INDIAN PHYTOPATHOLOGY

Volume 61(1): 2008

CONTENTS

Prof. A.P. Misra Memorial Life Time Achievement Award (2007-08)	1
Presidential Address	
Glimpses of Phytopathology for Sustainable Agriculture – L.V. Gangawane	2
Fungal Pathology	
Influence of tuber infection, wetting durations, crop age and incubation period on late blight development in potato under Punjab conditions – T.S. Thind and C. Mohan	9
Morphological, pathogenic and genetic variability in castor wilt isolates – M. Santha Lakshmi Prasad, M. Sujatha and M.A. Raoof	18
Susceptibility of wheat to <i>Bipolaris sorokiniana</i> and its toxin measured through electrolyte leakage, chlorophyll loss and callus response – A. Srinivasan, K.D. Srivastava, R. Aggarwal and D.V. Singh	28
Heterothallism in <i>Tilletia indica</i> : Implications for physiological specialization – I. Sharma, A. Sirari, B. Raj, N.S. Bains and R.C. Sharma	34
Integration of fungicides and <i>Trichoderma viride</i> for management of seedling blight disease of apple caused by <i>Sclerotium rolfsii</i> – Kishore Khosla and A.K. Gupta	43
Role of spot blotch (<i>Bipolaris sorokiniana</i>) in deteriorating seed quality, its management in different wheat genotypes using fungicidal seed treatment – D.P. Singh and Pankaj Kumar	49
Influence of seed treatment with biocides and foliar spray with fungicides for management of brown leaf spot and sheath blight of paddy – S.K. Biswas, Ved Ratan, S.S.L. Srivastava and Ramesh Singh	55
Weather based forecasting model for incidence of downy mildew of pearl millet in Coimbatore – A. Krishnaveni, P. Raja and M. Ramiah	60
Eco-friendly Management of Alternaria Blight in <i>Brassica juncea</i> – P.D. Meena, C. Chattopadhyay and R.L. Meena	65
Association of new fungal species with leaf spot and blight of Sunflower and cloning of their ribosomal RNA genes – R.L. Chavhan, P.K. Chakrabarty, F.S. Patil, H.B. Patil, S.K. Singh and B.M. Khadi	70
Opportune period for screening wheat germplasm against powdery mildew in Punjab – Upasana Rani, G.D. Munshi, Indu Sharma and Karam Chand	75
Effect of lac-based formulations on incidence of <i>Penicillium italicum</i> on Kinnow fruits – Dinesh Singh, P.C. Sarkar, R.R. Sharma and S. Srivastava	79
Quantitative variability for lesion size and lesion number as components of resistance against <i>Alternaria brassicae</i> in Rapeseed-Mustard – Rajbir Yadav, S.S. Meena and S.C. Chatterjee	83
Influence of soil factors on population dynamics of bioagent - <i>Trichoderma harzianum</i> – Meena Devi and Y.S. Paul	87
Influence of weather parameters on purple blotch of onion – V.K. Razdan, Efath Shahnaz and Sudheer Kumar	90

Spatial distribution pattern of <i>Phytophthora</i> inoculum in cardamom soils – R. Suseela Bhai and Y.R. Sarma	95
Antifungal activity of some medicinal plants against <i>Fusarium oxysporum</i> f.sp. <i>lycopersici</i> – Deepak Kumar Srivastava and Heeral Lal Yadav	99
Soil characteristics and their relation to the development of tomato collar rot caused by <i>Sclerotium rolfsii</i> – D.K. Banyal, V. Mankotia and S.K. Sugha	103
Liquid substrates for mass production of potent biocontrol agents of water hyacinth – R. Praveena and A. Naseema	108
Mycology	
Novel additions to <i>Corynespora</i> Gussow from India – Shambhu Kumar, Raghvendra Singh, Vivek K. Pal, D.P. Singh and D.K. Agarwal	111
Virology	
Further analysis of coat protein gene sequences of <i>Tobacco streak virus</i> isolates from diverse locations and hosts in India – Sudeep Bag, R.S. Singh and R.K. Jain	118
Short Communications	
Prevalence of leaf rust pathotypes in Peninsular India from 2004-2006 – S.R. Lohate, V.S. Shinde, G.G. Khot and B.P. Kurundkar	124
Present scenario of <i>Phytophthora</i> stem blight disease of Pigeon pea in Bahraich district – Manju Srivastava, R.K. Srivastava and T.P. Mall	128
Effect of pre-harvest application of fungicides and bio-control agents on black mold (<i>Aspergillus niger</i>) of onion in storage – R.R. Ahir and R.P. Maharshi	130
Backcross derivatives of variety PBW 343 expressing resistance to wheat rusts – A. Saikia, R.N. Brahma and M. Sivasamy	132
Efficacy of new fungicides in the management of early and late blight of potato – Akhilesh Singh	134
New Records	136
News	139
